

Welcome to Madrid

Today the shop is managed by the third generation of the family, in the person of Félix Martín Asunción. It is especially strong in eighteenth and nineteenth century decorative art, articles made of ceramic and porcelain, glass and silverware, leather, ivory and stoneware. There is also a good stock of antique furniture in general.

At Félix Antigüedades you can find a remarkable range of antique objects: walking sticks, games and toys, dolls and all their accessories, medical and scientific instruments, globes, popular handicraft, music boxes, domestic utensils and office items, keys and locks, seals, old and modern clocks, and watches for collectors.
