

Welcome to Madrid

Ana Locking is one of Spain's most famous young fashion Designers. Her creations could be found at multi-brand shops long before she opened her own establishment. She finally revamped her own atelier and turned it into a shop; the location could not be better: in the middle of the Chueca neighbourhood, where alternative and bohemian clothing is at its most fashionable. Here, Ana Locking sells her designs: slim silhouettes, combined volumes and austere yet modern creations. Locking offers the chance of dressing up in modern style by an up-and-coming fashion designer, without paying more.
